- *Puncture repair kit*
- *Multitool set*

TOURING BIKES

Designed to withstand heavy loads and provide high safety and comfort even after long hours of riding in the saddle, these adventure bikes will serve you well both on and off-road.

The downside to all these extra features and equipment is weight, but on a long distance tour, reliability, comfort and safety, win the day.

ELECTRIC BIKES

Not every type of electric bike is suitable to use in a cycling tour. Most e-bikes are actually designed for city cycling rather than long distances routes.

Experience allows us to choose e-bikes with the most suitable features for touring: reliability, simple operation, long battery life and short charge time.
